

Financial Analyst Programme

alx

ALX is focused on helping you get the career-ready skills as well as the technical capabilities to help you kickstart your future in some of the most in-demand fields that employers are looking for right now.

In partnership with the Corporate Finance Institute (CFI), the 8-week Financial Analyst (FA) programme provides young professionals with the opportunity to kickstart their careers as Financial Analysts.

At ALX, we do learning differently. The FA programme offers you opportunities for a holistic learning experience and is structured in a tested world-class 70:20:10 Learning Model for leadership development:

70%

Learning by doing:

Completing critical milestones that strengthen your ability to deliver impact as a Financial Analyst and gain experience.

20%

Learning from others:

Engaging with peers, attending events and receiving direct feedback from peers and instructors.

10%

Formal Coursework & Training:

Going through a world-class syllabus administered through our learning management platform

Through this immersive programme, you have the opportunity to boost your potential in securing meaningful and dignified job opportunities.

Young Africans such as yourself are taking this programme to:

- 1 Gain relevant experience and skills in a highly sought after field.
- 2 Learn and engage with top industry experts and get certified by an accredited learning institution, and
- 3 Secure dignified, rich, and meaningful paid job opportunities.

Today's financial analyst requires a variety of skills and a broad knowledge base, providing insights, review and action to drive profitability.

In just 8 weeks, you are on the pathway to becoming a professional with knowledge in accounting, strategy and corporate finance, and skills in financial modelling, forecasting and analysis, your career opportunities are endless.

Being a highly skilled and experienced financial analyst means you are able to get opportunities to work anywhere and from anywhere in the world. It's not just about banks!
